

BCV Update
Winter 2021

Water! Water! Water!

According to the World Health Organization, the economic benefits of investing in water and sanitation services include an overall estimated gain of 1.5% of global GDP and a \$4.30 return for every dollar invested, due to reduced health costs for individuals and society, and greater productivity and involvement in the workplace. Also, did you know that well water is rich in minerals, and chemical free?

We would like to extend a special thank you to Rolan D'Coasta! His organization, 3i, has made a tremendous investment in our community by drilling a well and constructing a borehole that will supply fresh and clean water for the entire community!

This well is currently operating and open to all individuals in our community! We believe this will equip and enable our town of Phalombe with an invaluable resource that can be used to aid in general hydration consumption, bathing and sanitation purposes, food preparation, brick and construction use, and a host of other worthy causes.

Who Wants Some Ribeye?

That's right! We have plenty of ribeye steaks to go around! We have been herding and breeding our own cattle at our campus since our inception. We began with four cows and we are now at 23! This past October, we began to feeding

our children fresh meat from our cattle ranch! We have waited for quite some time to ensure the selection process of such would be accurate and sustainable. Through this method, and with the help of officials from the agriculture department, we chose

only the healthiest and mature cattle for consumption. This great milestone is very instrumental for our overall long-term sustainability as it significantly reduces our cost to procure meat which is a great source of protein, rich in vitamins and minerals, and helps our children develop muscle mass!

PARTNERSHIP SPOTLIGHT

We would like to highlight one of our corporate partnerships! Brandi James is the founder of www.TheLeZodiac.com, a jewelry, clothing and apparel brand. In addition, she's a certified health coach, fitness instructor, and public speaker.

Her passion is educating female youth on leadership, life enhancement, and entrepreneurship.

She also takes pride in educating female youth and women on living and providing a healthy lifestyle for themselves and their families.

One of her life goals has always been to make a positive impact within our communities by partnering with

nonprofit organizations that seek to make a difference in the lives of children.

We are highlighting this partnership because we were selected as a primary nonprofit beneficiary of her organization! As such, we have already begun to receive access to share in marketing & communication to her clients! We have also begun to collect donations resulting from receiving a portion of her revenue proceeds on an annual basis!

What are **you** waiting for?

Malawi is waiting for **you**.

MAKE AN IMPACT
VOLUNTEER

**Friday, May 27-
Saturday, June 4, 2022**
